Intro

In the silence
The battle remains

Verse 1

In the night of watchful souls
Where the heart is being tried
There dwells a sleepless peace
Guardian of the truth

Verse 2

No cry, no blaze of earthly power
But a rooted strength
In order and obedience
Evil begins to recede

Verse 3

For falsehood speaks in whispers low
And seduces the distracted soul
But the one who keeps watch in faith
Discerns the secret ruses

Chorus

May the Holy Cross be my light
May the dragon not guide me
Be gone now, spirit of darkness
I will never follow in your path

Your promises are filled with lies
Your gifts are full of corruption
What you offer carries death
Keep your poison for yourself

Verse 4

In the silence of the monastery
An invisible battle is waged
Every thought becomes prayer
Every fall a new battle

Verse 5

The enemy slips through the shadows
Through doubt and confusion
But the soul rooted in God
Does not yield to illusion

Verse 6

No room for compromise
No alliance with evil
The heart faithful to the light
Remains firm in the battle

Chorus

May the Holy Cross be my light
May the dragon not guide me
Be gone now, spirit of darkness
I will never follow in your path

Your promises are filled with lies
Your gifts are full of corruption
What you offer carries death
Keep your poison for yourself

Bridge

By the sign of the Holy Cross
The chains fall in the night
And the authority of Christ reigns
Where the enemy takes flight

It is neither force nor anger
But a proclaimed truth
That makes all darkness tremble
And forces it to retreat

Be gone
You have no power
Your words are empty
Your promises deceitful

The Cross is raised
And your defeat is certain
The Cross is my light
The Cross is my strength

The Cross is my victory

Chorus

May the Holy Cross be my light
And never shall evil guide me
In the peace of steadfast faith
All darkness vanishes before me

I reject all your illusions
I refuse your false brilliance
And by the Cross that protects me
I stand firm in the midst of battle
